
ACARS 1.0 Decoder.rar

With the help of RTL-SDR and some ACARS message decoding programs around you, you can . Copy the files libusb-1.0.dll, rtl_sdr.dll and pthreadVC2-w32.dll from . From this directory, run the libusb-1.0.dll file. You don't need to install this app, it just helps you to decode the ACARS message. If you want to know how to install these DLLs, you'll have to search the web for them, as they are not included with the Raspberry Pi distribution. To decode, use a program called Demo, which can be downloaded from the Raspberry Pi website. If successful, you will see a message like this
