Quote: Originally Posted by newtoingeartrading I would just go straight to Gitzo. They have a good reputation. Very high quality. Also very reliable. I used the Gitzo 590B model for a few of my tanks. I have a new model now and it's rock solid. I have used another brand of tripod and compared this to it. The Gitzo is light weight and sets up perfectly the first time. And it doesn't move when tightening the bolts. The one brand with great quality and characteristics in general, and even build quality is Gitzo. The present invention relates to a method and apparatus for inspecting the quality of packing of containers and, more particularly, to a method and apparatus for discriminating the inner and outer surfaces of a container at the time of container packing. In the packing of an object such as a container, it is demanded to achieve an efficient and high-quality packing. To meet the demand, a method, which is used in the packing of an object such as a container, was proposed by the applicant of the present invention. The method is disclosed in Japanese Patent Application No. 62-292040 filed on Oct. 4, 1988. In this packing method, the inner and outer surfaces of a container are inspected to obtain image data of the inspected and discriminated is then packed. The packing method with this advantage will hereinafter be referred to as the first method. The first method for packing an object such as a container is based on the assumption that the inner and outer surfaces of the container are accurately discriminated by inspection. Thus, the packing method with this advantage is not highly reliable. Thus, a second packing method has been prop
