by Digital Satellite Systems, Inc. : DSi™ Advanced Host Adaptation Program:. Niemela E, Jahnjaus MD, Dean PA.. Start testing with a through rate, set the insulation current to a factor of 8 higher,. It's been a long day, take a break and watch what you've been waiting for: Watch a 'Canadian' version of 'The Office' in the summer of 2000! Remember that summer where the only thing Canadians talked about was the Olympics? No, that was 2001. It's the summer of 2000 and I'm gonna pull this right out. Here's one I found on Youtube. Just know there were some minor changes to the original script. If you don't like the political language, then do keep on reading; I have some good news for you. First, let's look at the jokes. Most of the jokes are political. While I could throw out some funny political jokes, I do not think that's the best way to go. It's not that I don't think funny political jokes are funny. It's just that most people don't agree. So I've gone the route of the show's writers. I've tried to capture what was similar to the US original. For example, there are a few episodes in which a politician makes a speech and then a political joke. In the US original, it was Jim saying a political

joke and then a politician making a speech. In this version, it's Dwight and Erin saying the jest and then a politician doing a speech. This is also why there are so many references to Donald Trump. I tried to capture the essence of the original show. Now, let's look at the differences. The first thing you might notice is that all Canadian are bilingual. Dwight is in French and Erin is in both French and English. Everyone talks in French, except for Dwight. He doesn't understand French at all and only understands a few words. In the US original, Michael was in French and the bilingual Brian got to speak. Brian was generally the one that spoke in French and all the others spoke in English. So the original script is more mono-lingual and the Canadian version is more bilingual. When the ice hockey results came out, Michael was very excited. "Just so you all know. In case some right-wing conservative here might want to take it as a sign that the Olympics are going to be a success. I was the goal god at
