in C#? Say, I have a list of numbers such as

1, 1, 2, 3, 5, 6, 9, 10. If I sort this array by

values, from highest to lowest, result will be

: 1, 2, 3, 5, 6, 9, 10 But I want to see them

sorted from biggest (or/and highest) to

smallest (or/and lowest). 1, 2, 3, 5, 6, 9, 10

How can I do this? A: You could use LINQ:

```
List list = new List() { 1, 1, 2, 3, 5, 6, 9, 10 };
```

```
// use LINQ here to do it. // Note: the order of
```

---

your original list doesn't matter.

IEnumerable orderedList =  
list.OrderByDescending(i => i).ToList(); See  
MSDN: OrderBy/OrderByDescending. Just a  
note: if you sort List, then it re-orders the  
underlying array. If you add something else  
to that list, it will not be in order with the  
original array. Q: How many 'old' powers do  
we have at the moment? I know that we  
have all kinds of powers. I was thinking  
about them for a while and I found out that  
there are: Celestial Mythological (From a  
human perspective) Celestial Magical Earthly  
Mythological Giant Magical Fairy  
Mythological Godly Mythological Inner  
Spiritual But we have all kinds of powers as  
well. Do we e79caf774b

Skip to the Good Part: 20 Authors Reveal Their Steamiest Scenes, Vol. 1 (Contributor) 7 copies. My Captain 7. This new album by Swedish singer-songwriter Petter has a difference from the classical background of her previous work. "Hysterical" is based on snippets of stories from the newspaper and a series of personal photographs from 1997 as a journalist: it's a work of narrative photography and music.

The singer-songwriter from Stockholm is an experienced musician, dancer and actor, plus she also received some training in photography. She has been a backing vocalist for artists such as The Smashing Pumpkins, Ladytron, Bjork, Oasis, Amy Winehouse, David Gray, Mew, and Maximo Park, amongst others, and has performed live with several other artists. And now she puts her acting expertise and her message to the beauty of life, the truth and the joy of being together in her music and with her new album.

Luminescent C2-Symmetric Distal-Nucleophilic Catalytic Oxidative Alkylation of Alkenes. An unprecedented C2-symmetric catalytic alkylation of alkenes was found using an oxidant-free distal-nucleophilic

---

alkenylation of benzamide/benzophenone imine and aldehyde using a catalytic amount of a dendritic iminobenzoic acid and 2,6-bis(chloroethyl)-4-methyl-phenol as the base, solvent, and oxidant, respectively. The combination of dendritic platforms and the dual roles of the metal-oxo-derived reactive intermediates as metal and oxidant leads to the development of a new protocol for the synthesis
