For more information, follow this link or watch the following discussion on this topic: What is the difference between Home and Pro editions of Windows 10? A: If you don't want the multi-language, single-layered editions; if you just want a fully functional home edition, a copy of the ISO with the following image applied to it is "the full ISOs" This image is meant to automatically detect on which edition you have installed Windows (no need to manually check it in your BIOS), and force the installation of the English version of the home edition You can download it (it's released like every year) from Microsoft's website If you have no issue downloading a full ISO of Windows 10, you can skip downloading the ISO from the Windows site and use one of the third party download sites linked in this answer A: Home is the cheapest version of Windows 10 as it comes with everything. To find it, check the product key when you install it. If you want to find version for your target language, there are many sites you can use to download the ISOs. Microsoft has an online calculator for it and it should work out the right one for you. Two campus rape cases get trial Guzman, Tyus scheduled for jury selection An ethnic-studies graduate student accused of sexually assaulting a fellow student at the University of California, San Diego, is scheduled to be tried in San Diego Superior Court. Robert Vasquez, 23, of Chula Vista, faces four counts of forcible rape, two counts of sexual penetration with a foreign object and one count of sexual battery by restraint. Vasquez has pleaded not guilty, and his trial is set for Feb. 4. If convicted, he faces

---

up to 45 years in prison. Vasquez is accused of raping "Jane Doe," who was intoxicated at the time of the alleged sexual assault. The case sparked controversy when the San Diego Union-Tribune published a story May 9 about the campus rape crisis that allegedly occurred at the University of California, Santa Cruz. Vasquez and his attorneys say the article sensationalized the case and was published without checking with the UCSD police department, which is conducting the investigation. The case has drawn national attention because UCSD Chancellor Pradeep Khosla initially told the media that the attack was not a rape but only a sexual assault.
