For details of the action RPG, the background information, and the completed gameplay experience, please visit the official website, or check out the following links. Elemental Mastery : Chapter Set : Clan Setting : Preview of the ELDEN RING : Hemoptysis in a patient with a Gleason score 9 (3+6) prostate adenocarcinoma. We report the case of a 76-year-old male with a Gleason score of 9 (3+6) prostate adenocarcinoma and concomitant aneurysm of the left bronchial artery, causing massive hemoptysis. The patient underwent left pneumonectomy. Pathological examination showed more than 50 nodular, micronodular, and mixed micronodular features. Based on these findings and the literature data, our case suggests that micronodular prostate cancer is the most common variant and carries the lowest risk of metastatic spread. In prostate cancer with hemoptysis, it is imperative to make an early diagnosis, and to plan and perform immediate neoadjuvant and adjuvant therapy, if needed. { "requestId" : "cb682578-9d92-4499-9ebc-5c6aa73c5397", "op" : "eval", "processor" : "session", "args" : { "gremlin" : "social.V(__.&1)", "language" : "gremlin-groovy", "aliases" : ["v"], "bindings" : [{ "key"
