Dungeon Rats Serial Key is a tactical two player game, inspired by the phenomenon of team-based dungeon crawls and the classic, epic Warcraft 3 "territory control" game mode. Both players take control of a team of rats armed with swords, spears, bows and grenades and must storm into the depths of a dungeon and eradicate the monstrous inhabitants! While on one side an attack unit can bring the rats to the main path, on the other side there is also a castle, from which poison gas and spike traps can inflict severe damage. The two sides can move separately from each other, but are also allowed to attack one another. In this way, the cunning and timing of each player becomes the key to victory.
