DESYNC is a first-person adventure game about the last 24 hours in the life of Frank Kurz. Set in a dystopian world where technology has gone to pot. After a simple delivery goes awry, Frank finds himself lost in a gigantic and incredibly dangerous experiment. As he roams through the facility trying to get home, his progress is hindered by two huge, nigh-unstoppable fighting robots called MD-0s. The boss robot is called MD-G. Frank needs to find a way to escape. Trickster - C64 For all of you indie game enthusiasts, this has all the makings of an excellent resource. While your programing knowledge is not enough to get you a job at Google, it is just enough for you to make a wonderful indie title. Leading into this, Tric Deo & Circle says in their video that "today's Game Developer isn't really a programmer, but an artists/programmers who likes to make the games. What makes a game indie is it's not made by a team of professionals, but by amateurs." The Game Developer says that there are a lot of services available to the indie developer. Many of them are free, which is a good start.
