Need to download this file? Bad news is it's now 404. The problem was that I imported this project using a older version of Navisworks. Golden Girls episode where they go on a cruise and something goes wrong? I think about that everytime i see a commercial that says, "FROM LAKE MILECOM" in it....classic, classic. I was looking at some pictures the other day of, wait for it...my mom's ski trip in the 1970's. Those outfits were different, and the picture-taking and posing was different, but it's always fun to look back. My favorite ski-ing memories were with my dad and his dad, and my aunt. My dad was a little more serious about skiing, but he loved to have fun (he still does!) and was a great skier. I think he'd be really proud of me, even though I rarely go anymore. 6d1f23a050
