and then, up jumped chow's buddy-in-crime, jackie chan. simply put, the actor is a legend. the hong kong movie star is one of the biggest names in action comedy - and with kung fu hustle 2, he's even come to the fore of the modern age. the sequel will see chan take the role of wong fei hung, alongside chow's character jackie ko. the pair agreed to appear in the movie after the first movie's success, bringing the landmark hong kong martial arts series full circle - with the kung fu hustle movie having been released 24 years ago. kicking off filming on the new movie at the start of 2019, chow shared the following announcement to twitter: "start another winning streak and celebrate the joy of life with kung fu hustle 2! hong kong's ultimate action comedy, complete with an even more eccentric cast and more ridiculously villainous twists, kicks off filming again in 2019. maybe it's destiny, maybe it's a lucky streak. it's beyond my control. i only aim to live a full life and appreciate nature & nurture, as they are the best gifts i've ever received. in doing so, i've made many good friends and associates over the years. thank you! every single one of you has a special place in my heart." following from the news that kung fu hustle 2 would have a female lead, some fans have expressed their concerns about whether chow will be able to deliver the same laughs he did back in the day. but if you were to take a second look at chow's last film, kung fu yoga, he's had enough experience to bring his comedy to a new level. the sequel stars chan as a blind martial artist fighting a villainous cult (chan has been spotted in disguises that suggest the antagonist will feature in kung fu hustle 2). the idea is that a lot of the fun of the movie comes from seeing the two leads go on an eye-opening journey in a setting that's different to what they're used to.

at \$ 1 million per episode, rick and morty is more expensive than many big-budget tv shows. still, perhaps due to its cult-like following, it does manage to pull in a decent audience. the fourth season of the animated series also managed to break the \$ 1 million mark for an episode, and this even includes commercials. the excessive promotion that accompanied this episode eventually garnered both critical and commercial acclaim for this first-time milestone. but, what did rick and morty do to reach this high-point? well, for one thing, it looked to its fans to win over some new viewers. in a strategic move, it decided to use its cult following to market the series online and on social media. to do this, it posted messages on fan pages on the likes of reddit, twitter, and instagram. like many other big-budget productions, thor: ragnarok utilized computer-generated images (cgis) to simulate spectacular set design and special effects. cgis are often used in movies to transform ordinary or already-existing set pieces into dynamic environments (or to change the existing environment). however, because films are complex endeavors and a cgi is often more expensive to produce than set design, it's hard to know exactly what the effects of cgis will be when it comes to the specific movie that's using them. while computer-animated sets often have a soft, plastic effect to them, the ragnarok set, for example, was an ominous high-tech prison cell. the cgi-created space left viewers wondering what new secrets and experiences the film's universe could contain. 5ec8ef588b
